

# THE FUTURE OF THIRD PLACES

CONNOR, JOEY, JOHN, INDIA, QIAN, AND YOHANNA

In a world where **AI anticipates our needs**,  
how is work redefined by the fluidity and  
intelligence of adaptive third spaces?

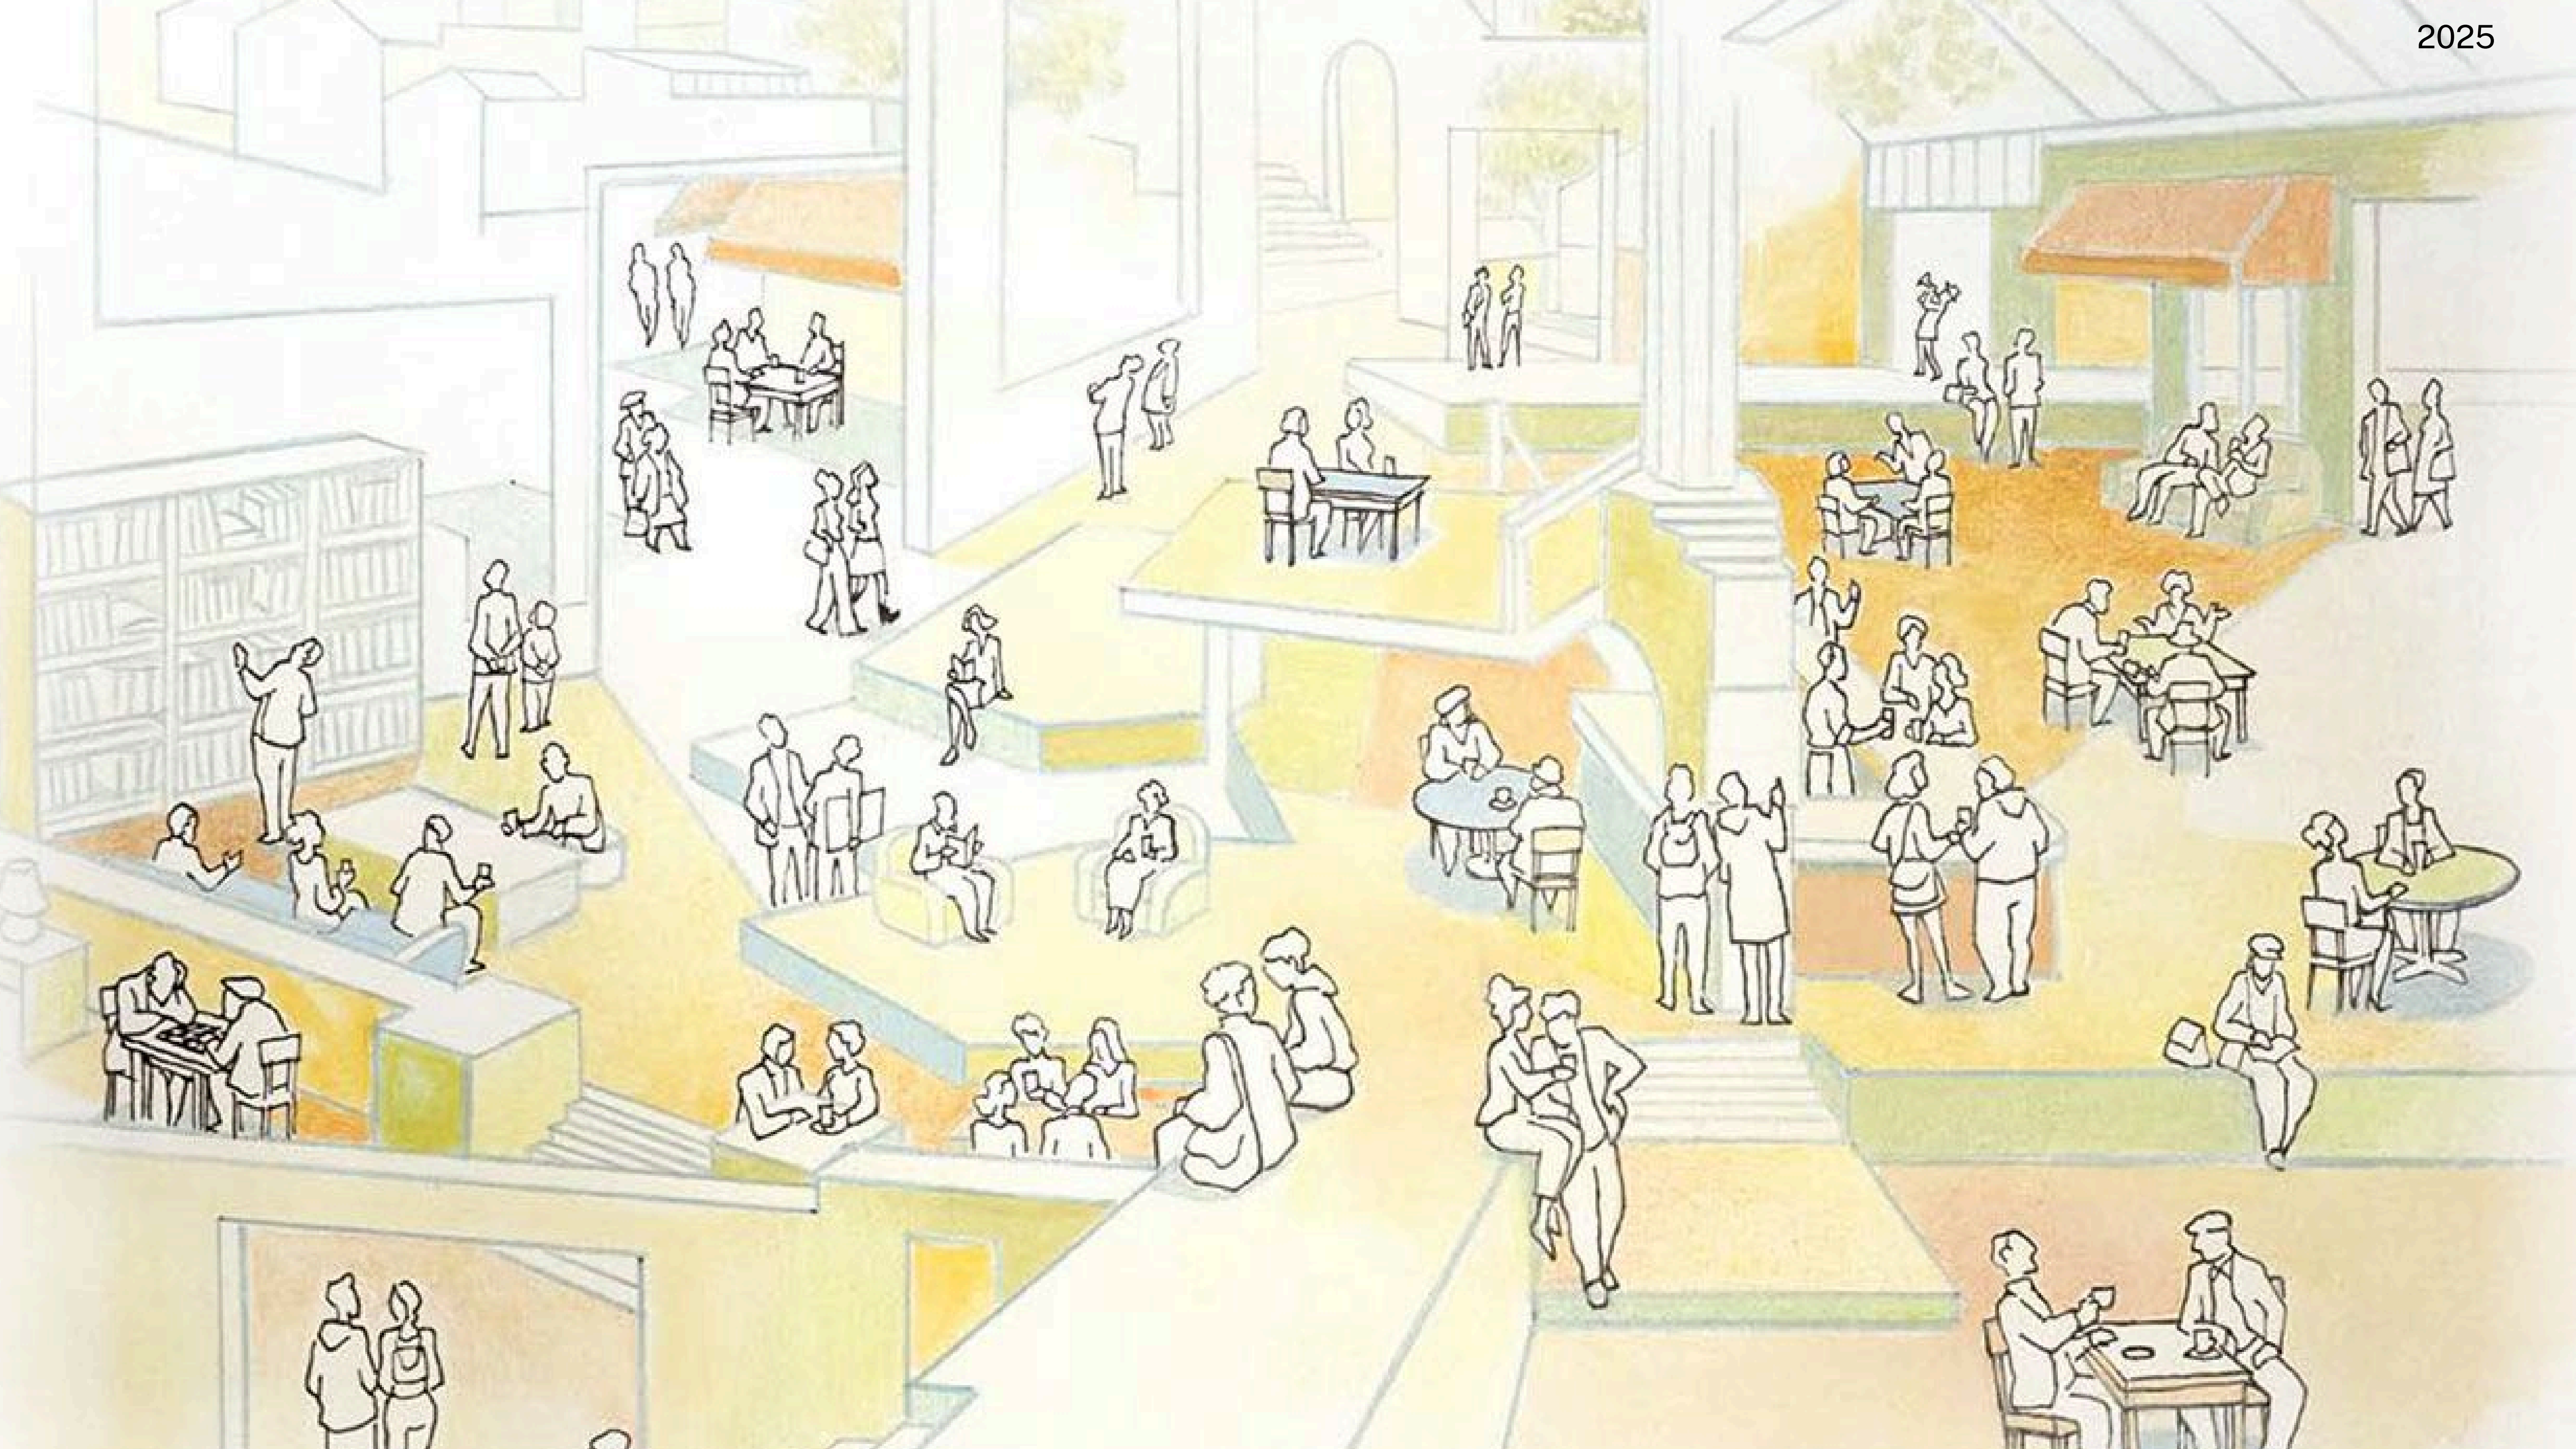

**Ray Oldenburg**  
Pioneer of “Third Places”

**Third places** allow people to hangout, converse, gather *beyond the realms of home & work* without financial barriers

The Great Good Place (1989)

# Signals of Change

# Loneliness is at epidemic levels

*Signal of change*

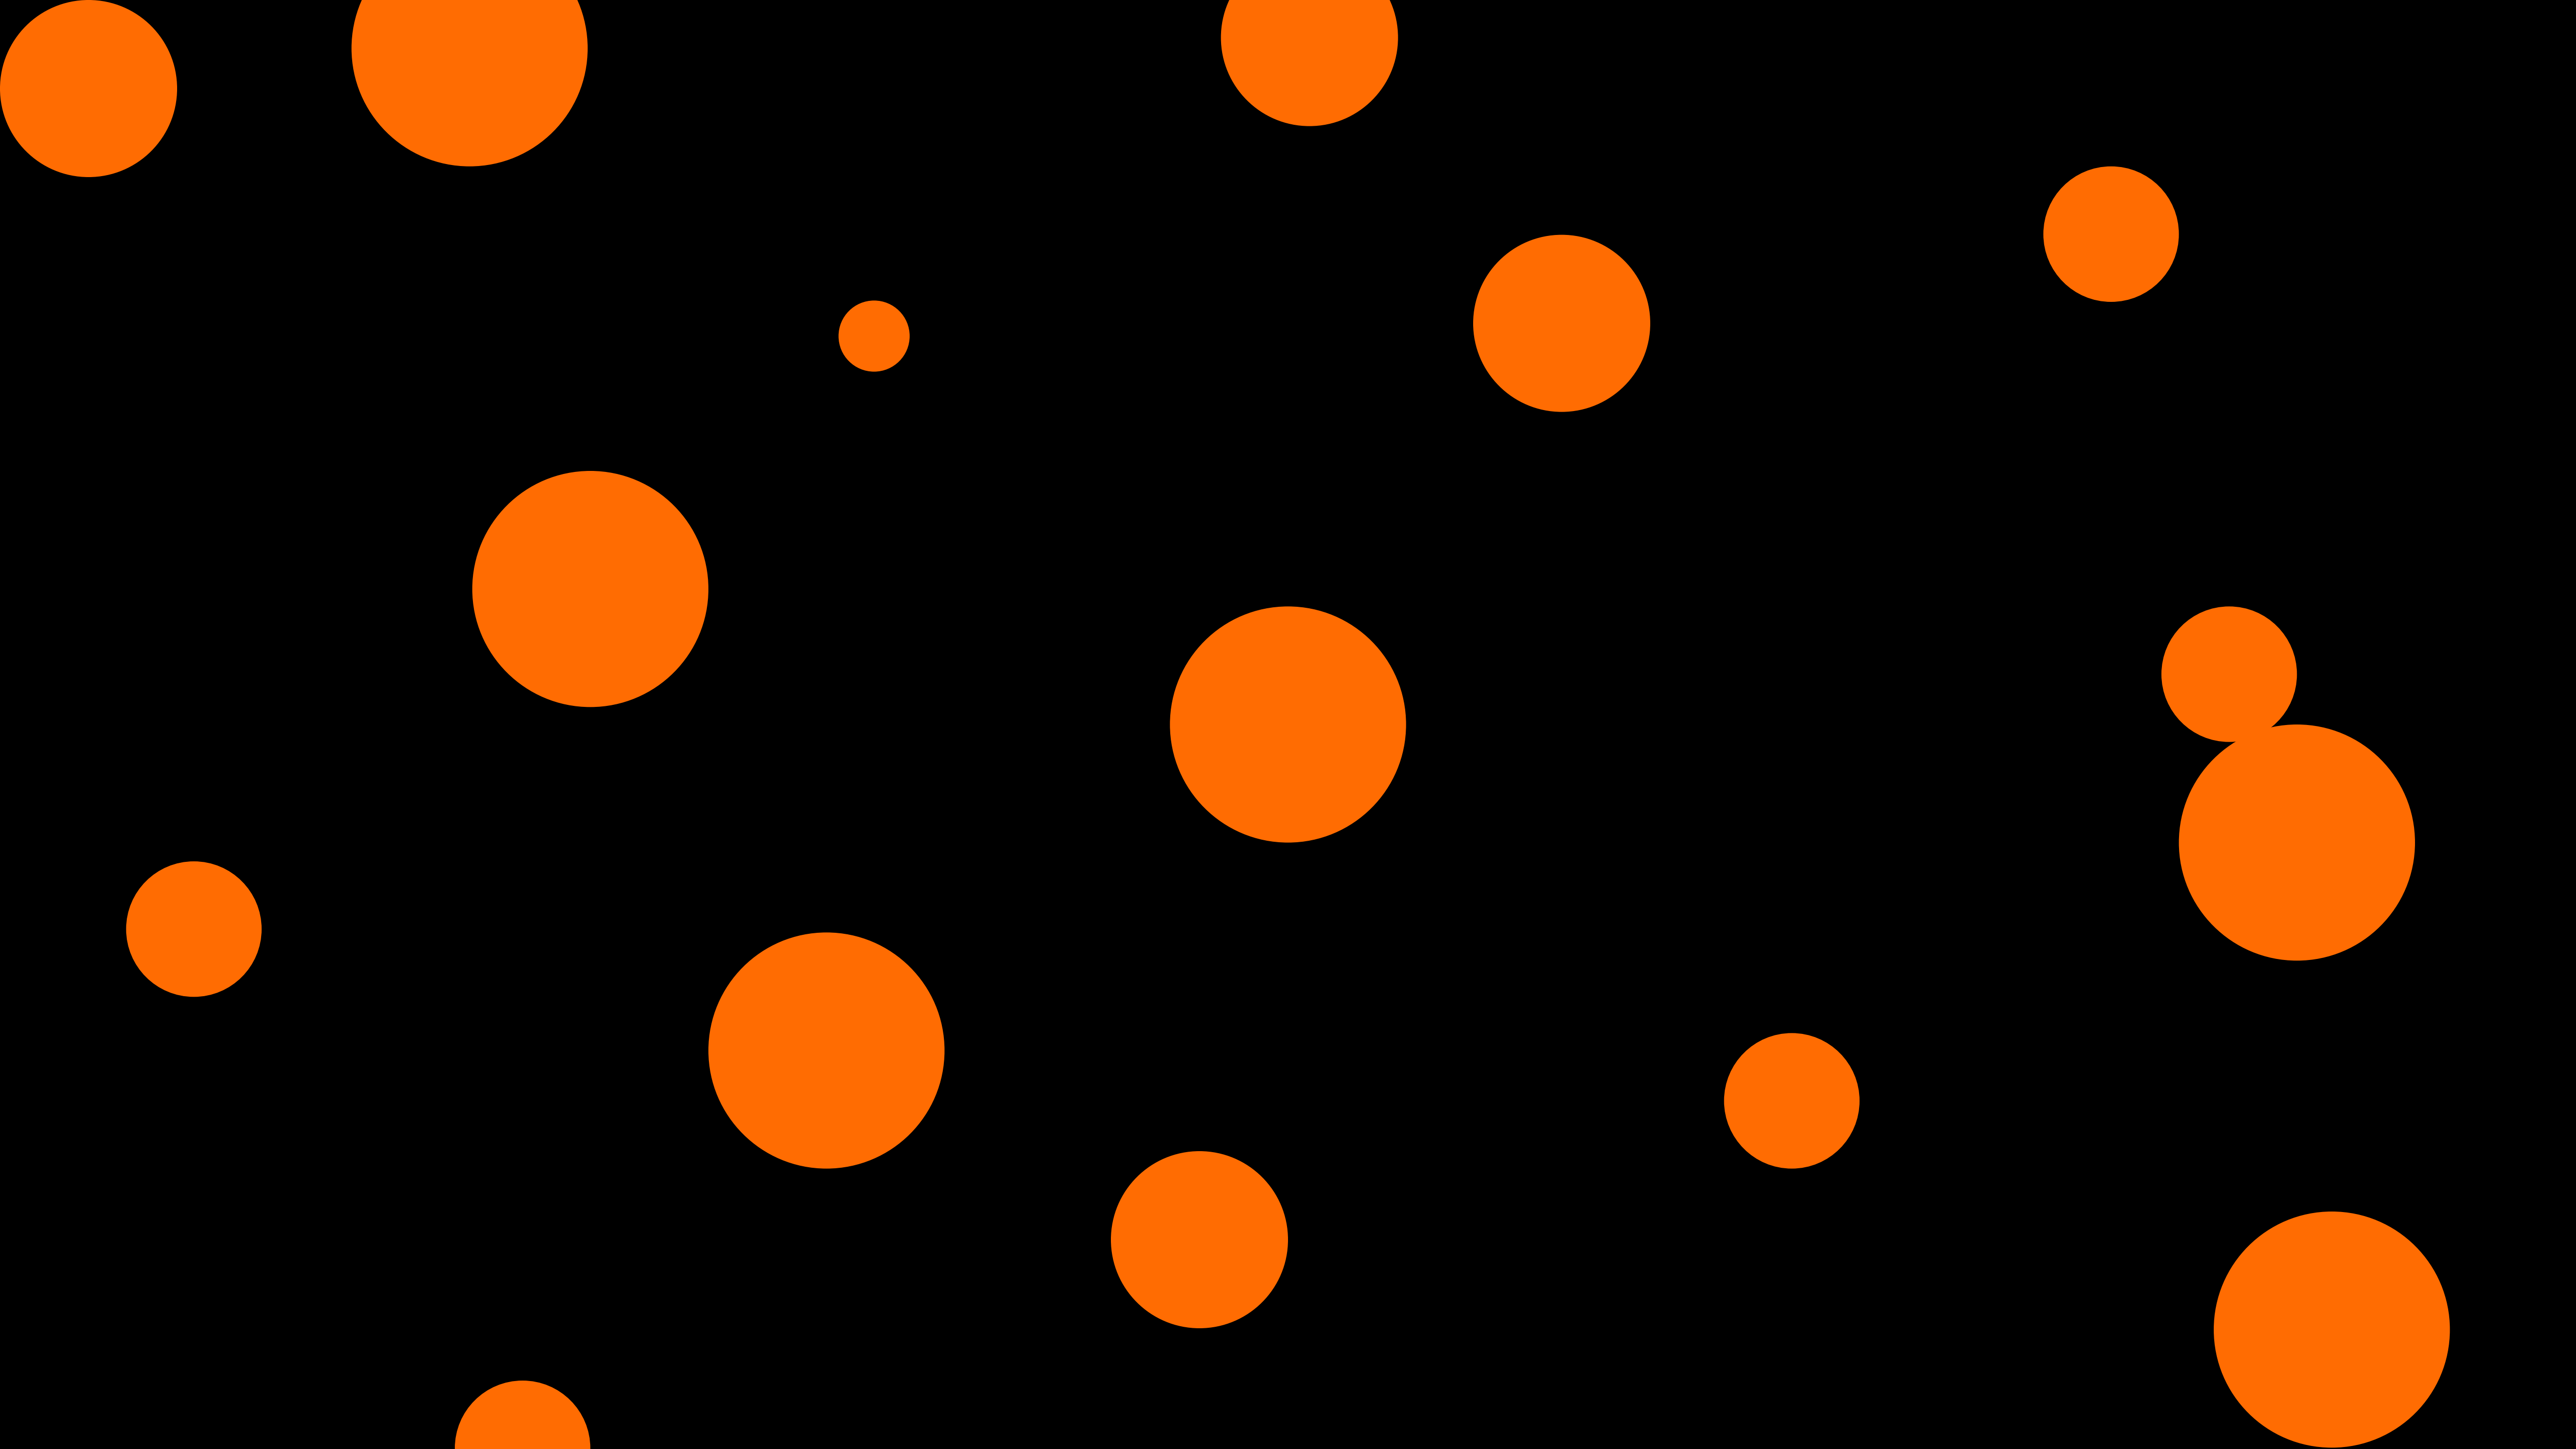

The amount of data being  
collected is unprecedented

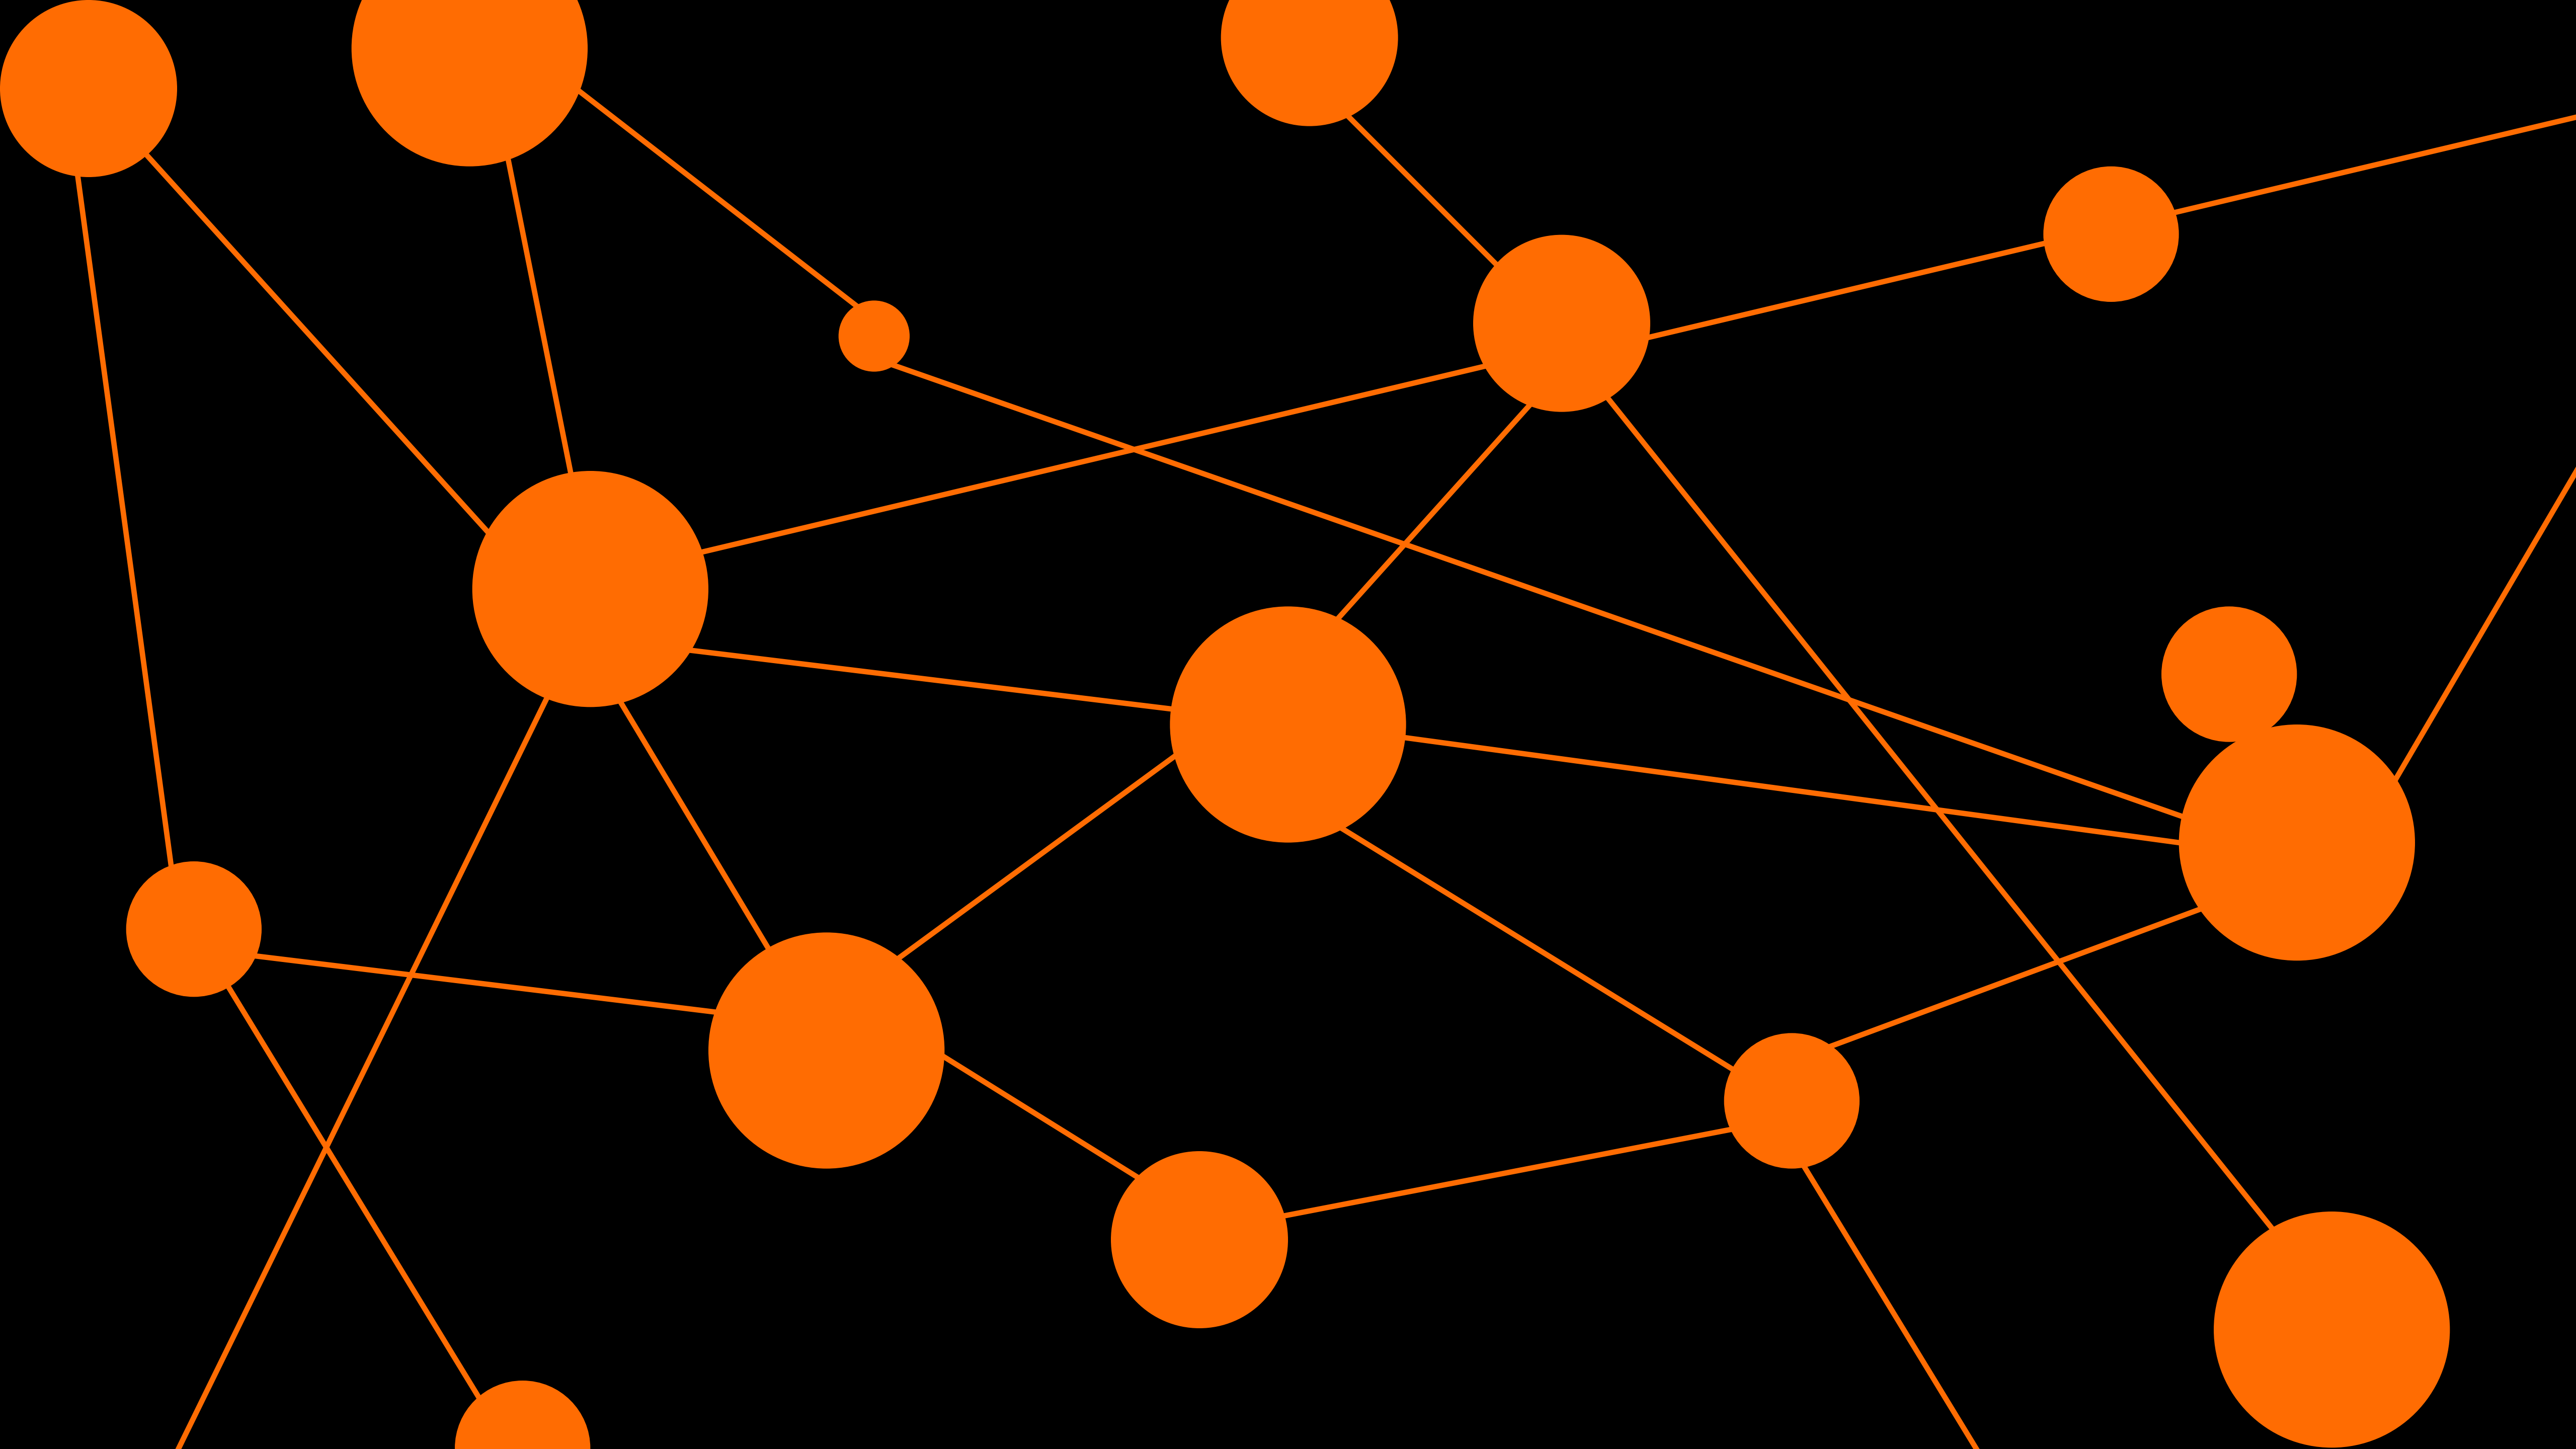

*Signal of change*

# Rise of algorithm matching (Spotify, dating apps, Uber)

*Signal of change*

Perfect Third Space =  $\frac{z+x}{10} + \frac{150}{\frac{xy}{\sqrt{z}}} + .000$

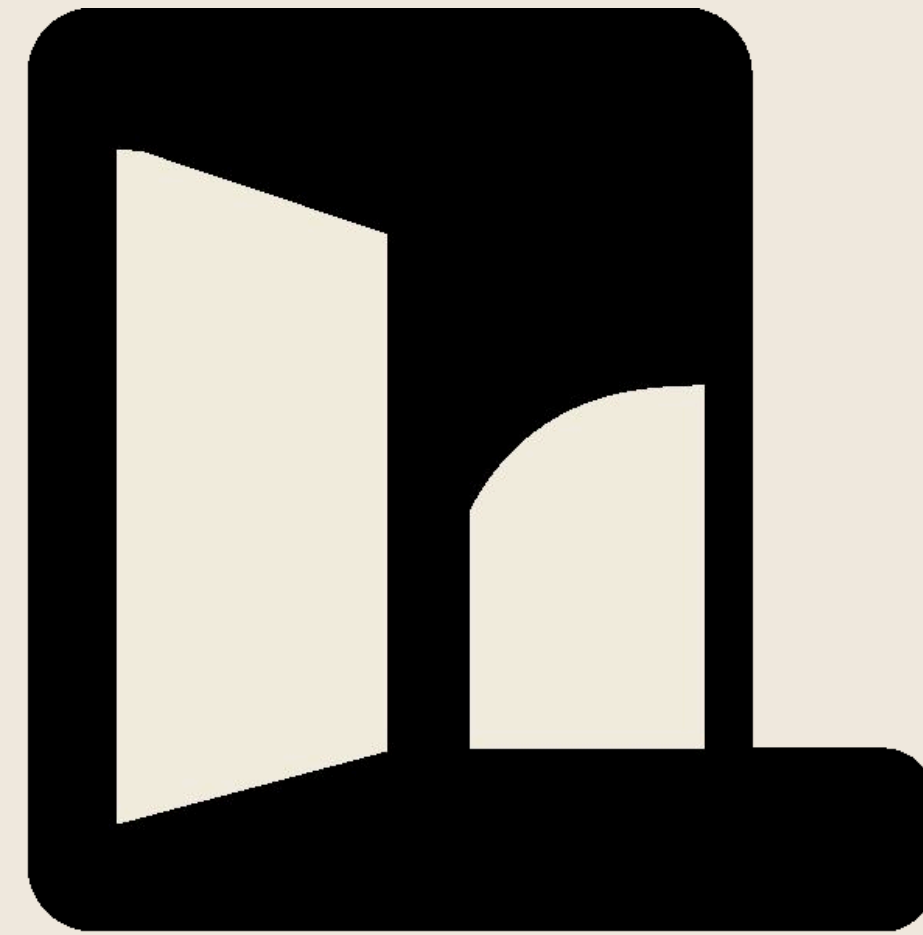

# What do we mean by “perfect”?

- ✓ Healthy social interactions
- ✓ Adapts to your data
- ✓ Increases inspiration
- ✓ Reduces job related stress

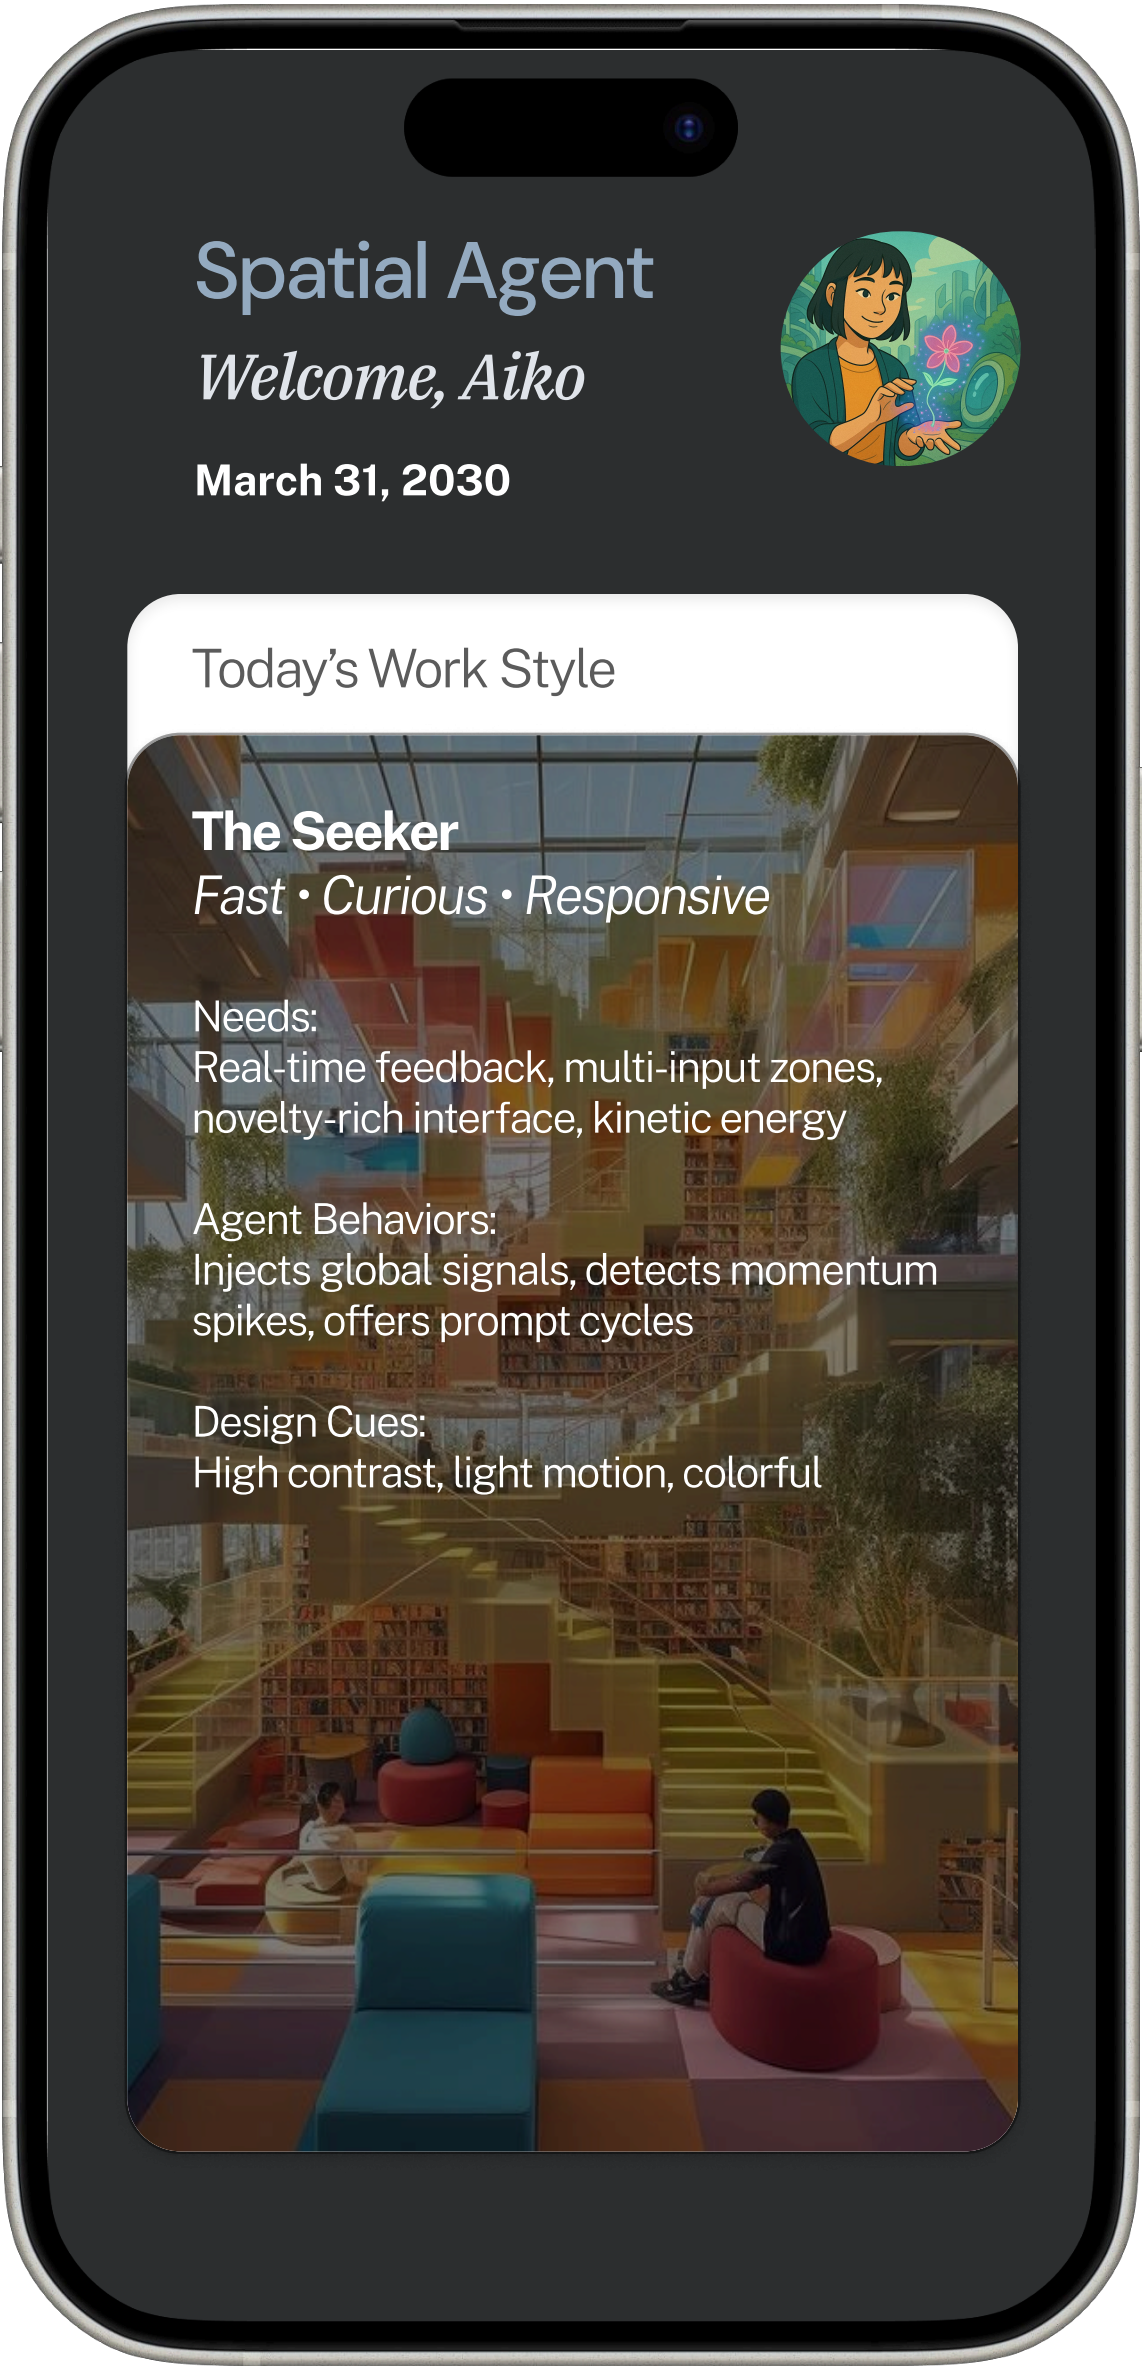

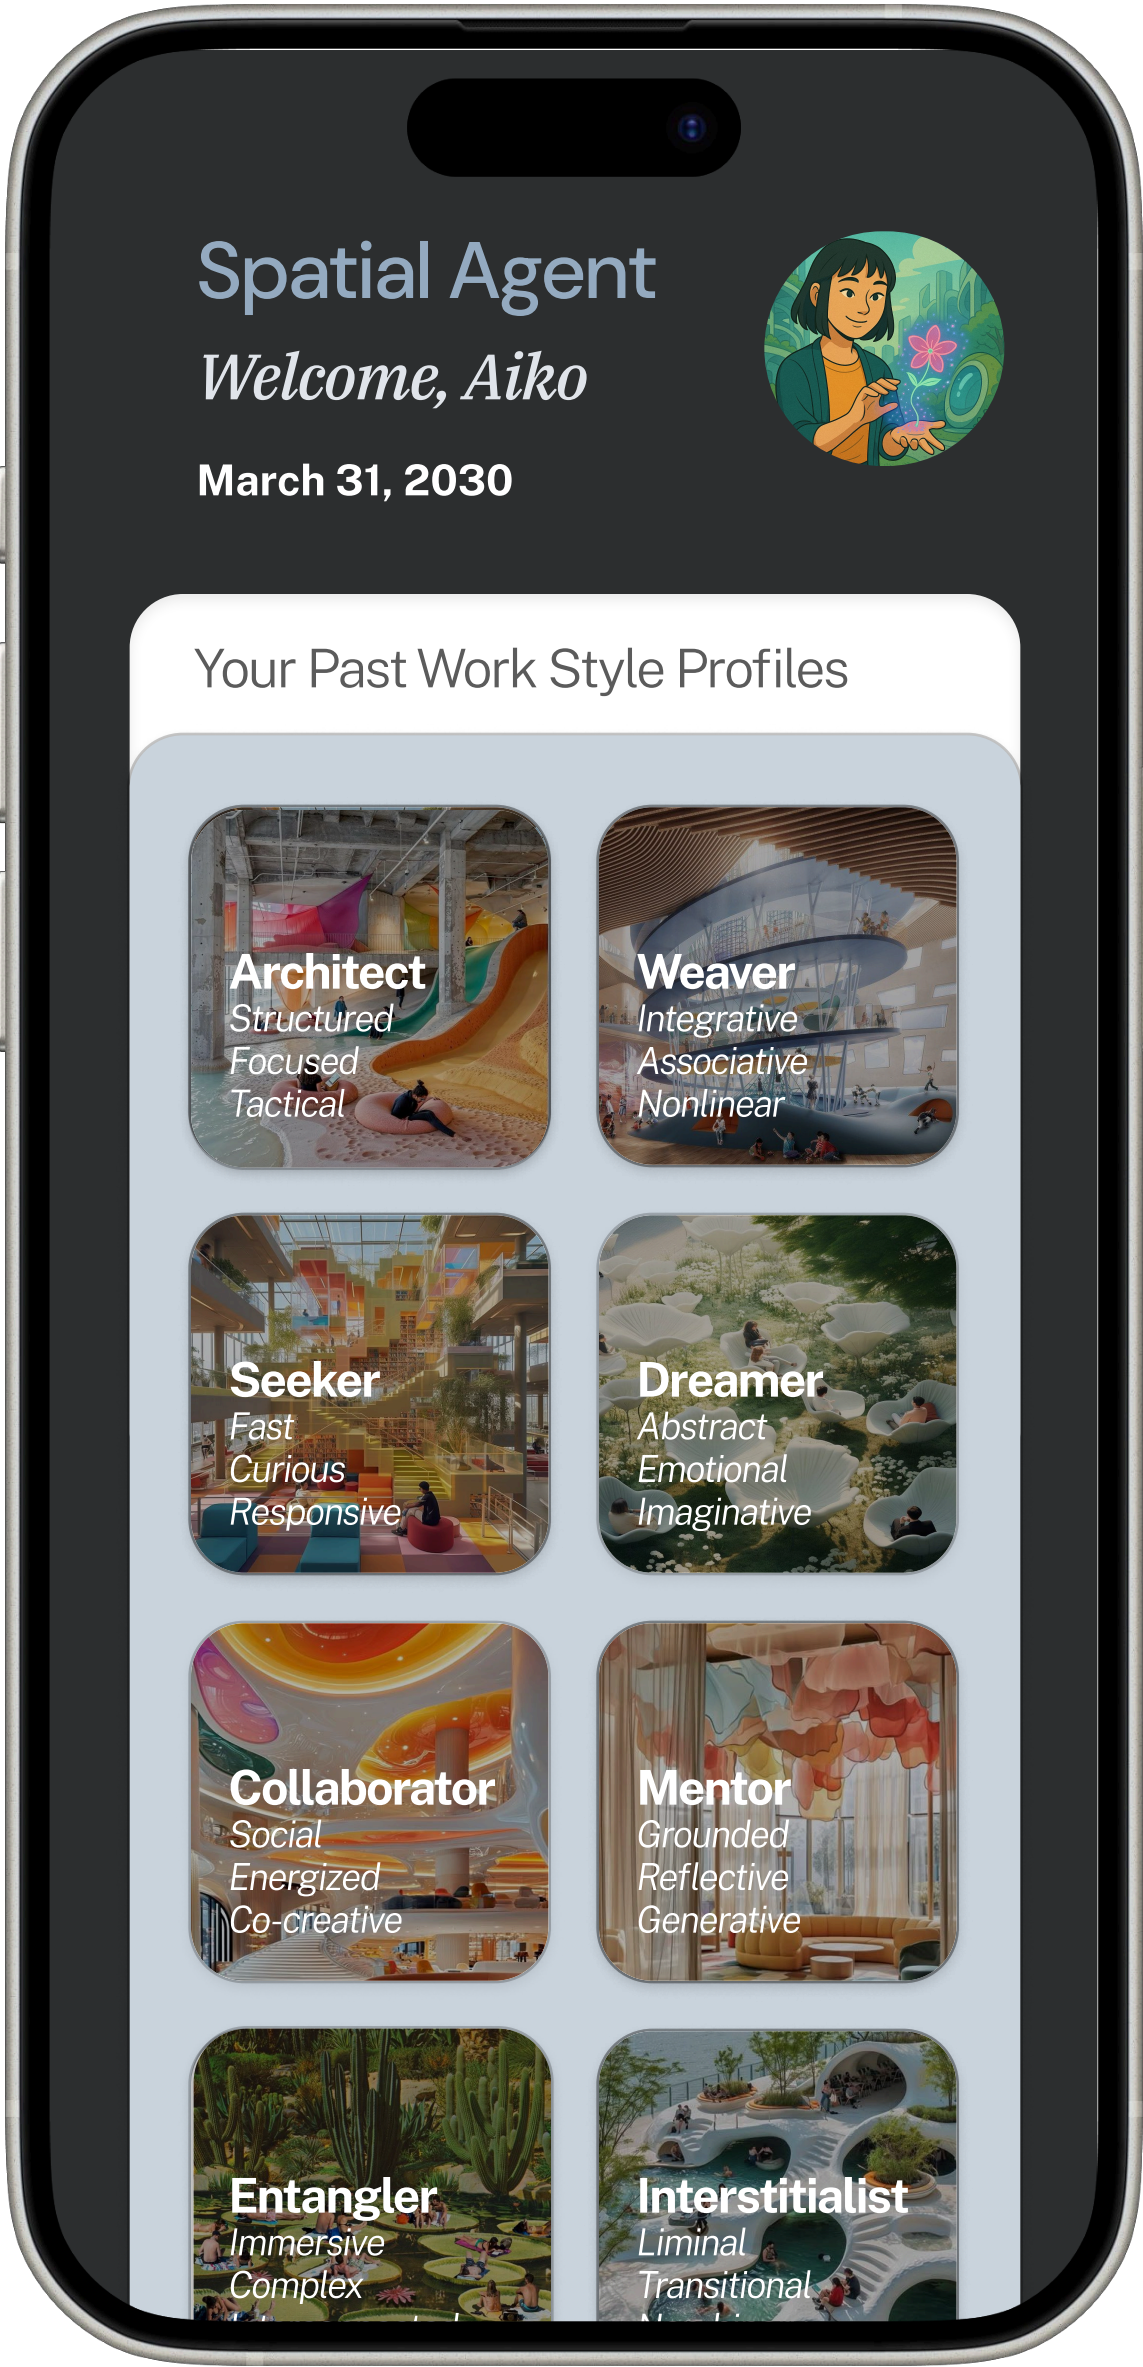

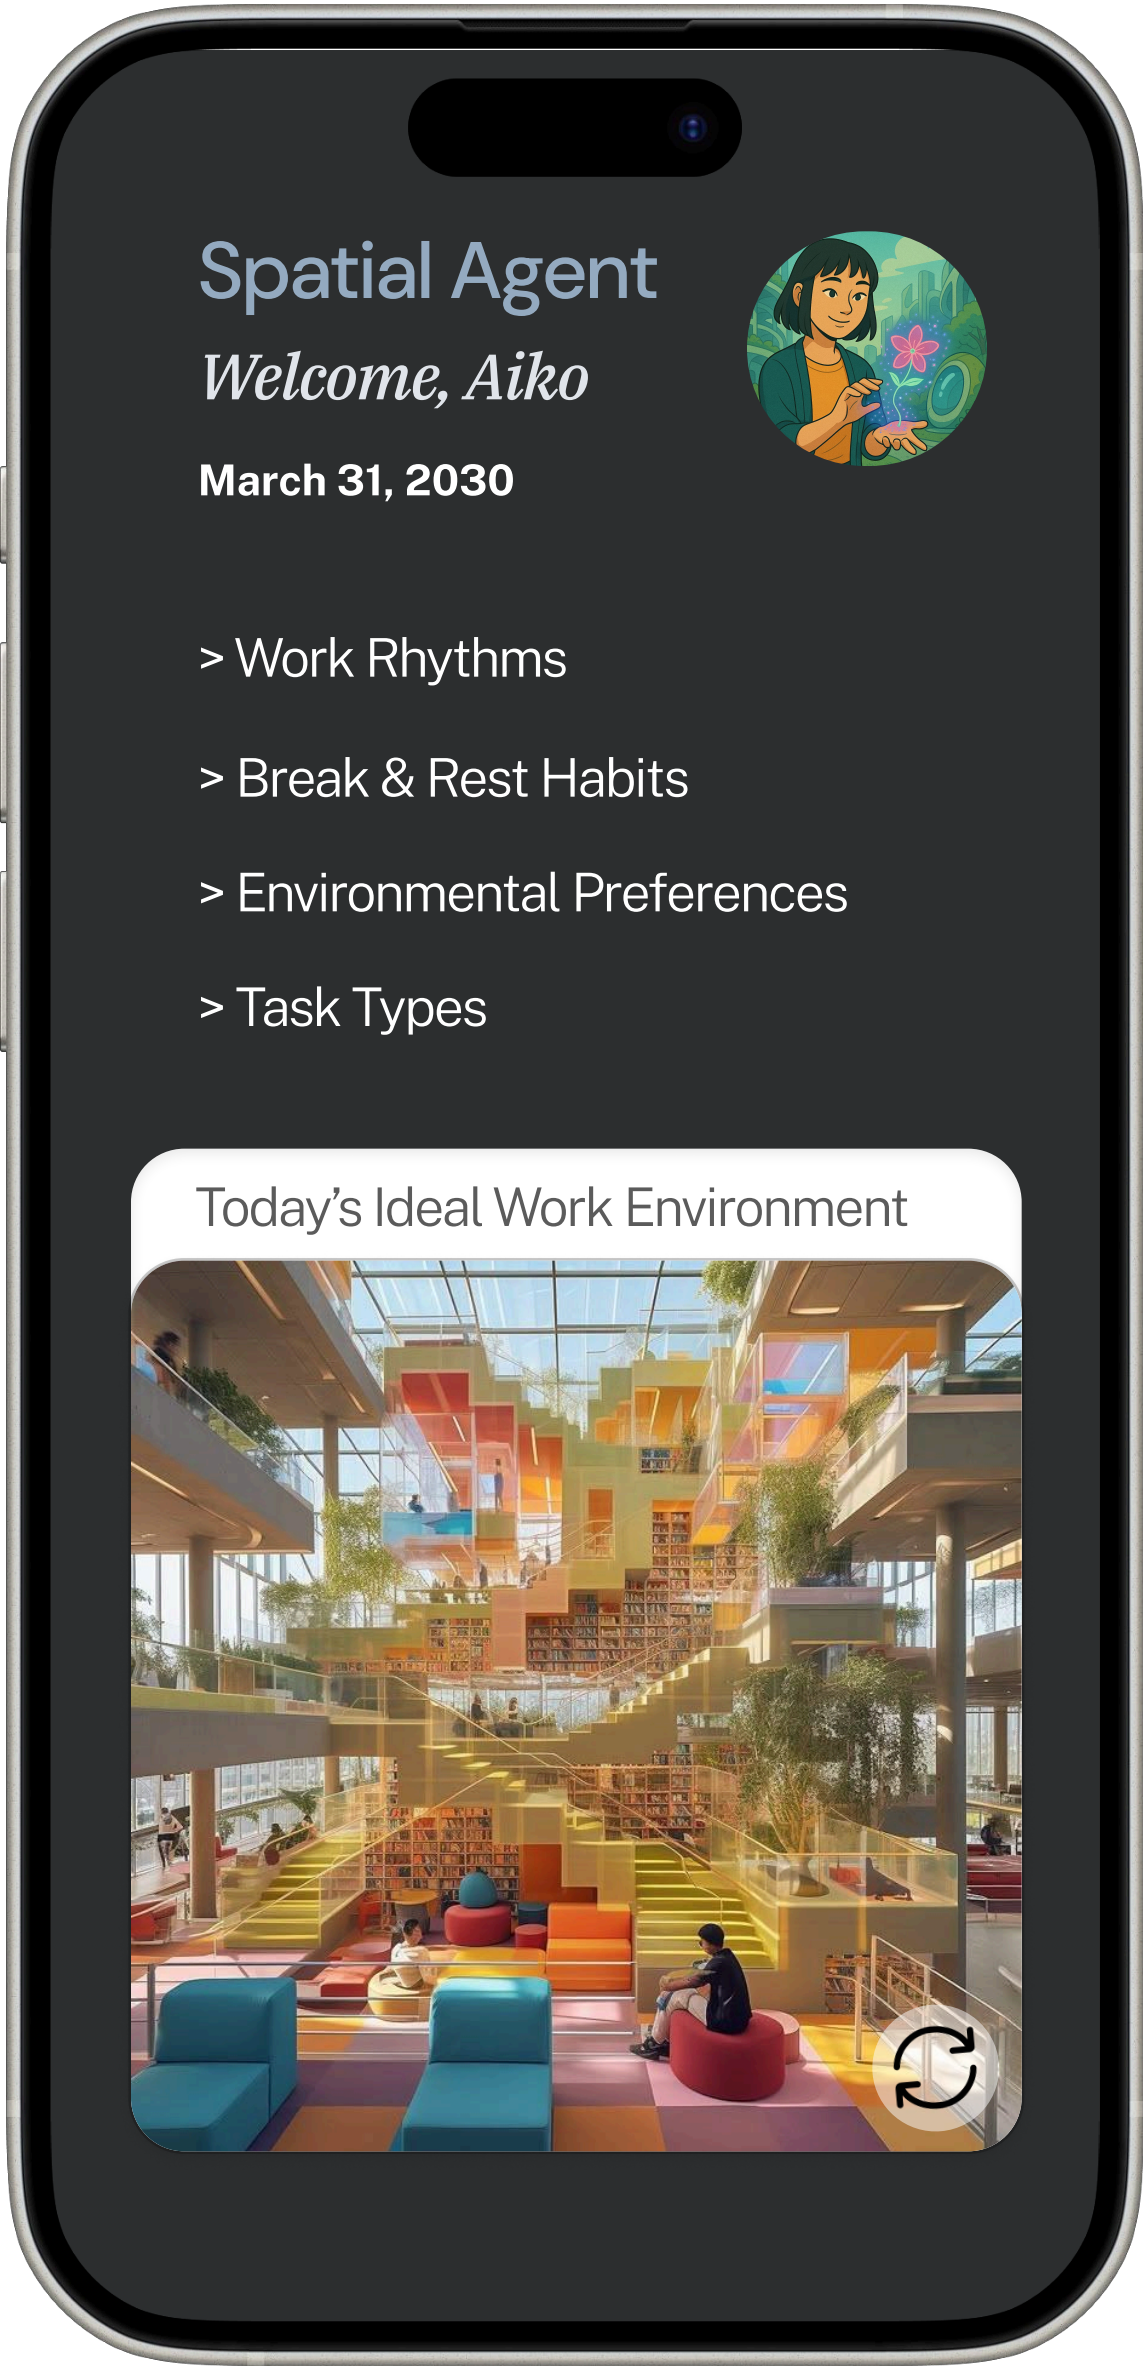

# POLYSPACE

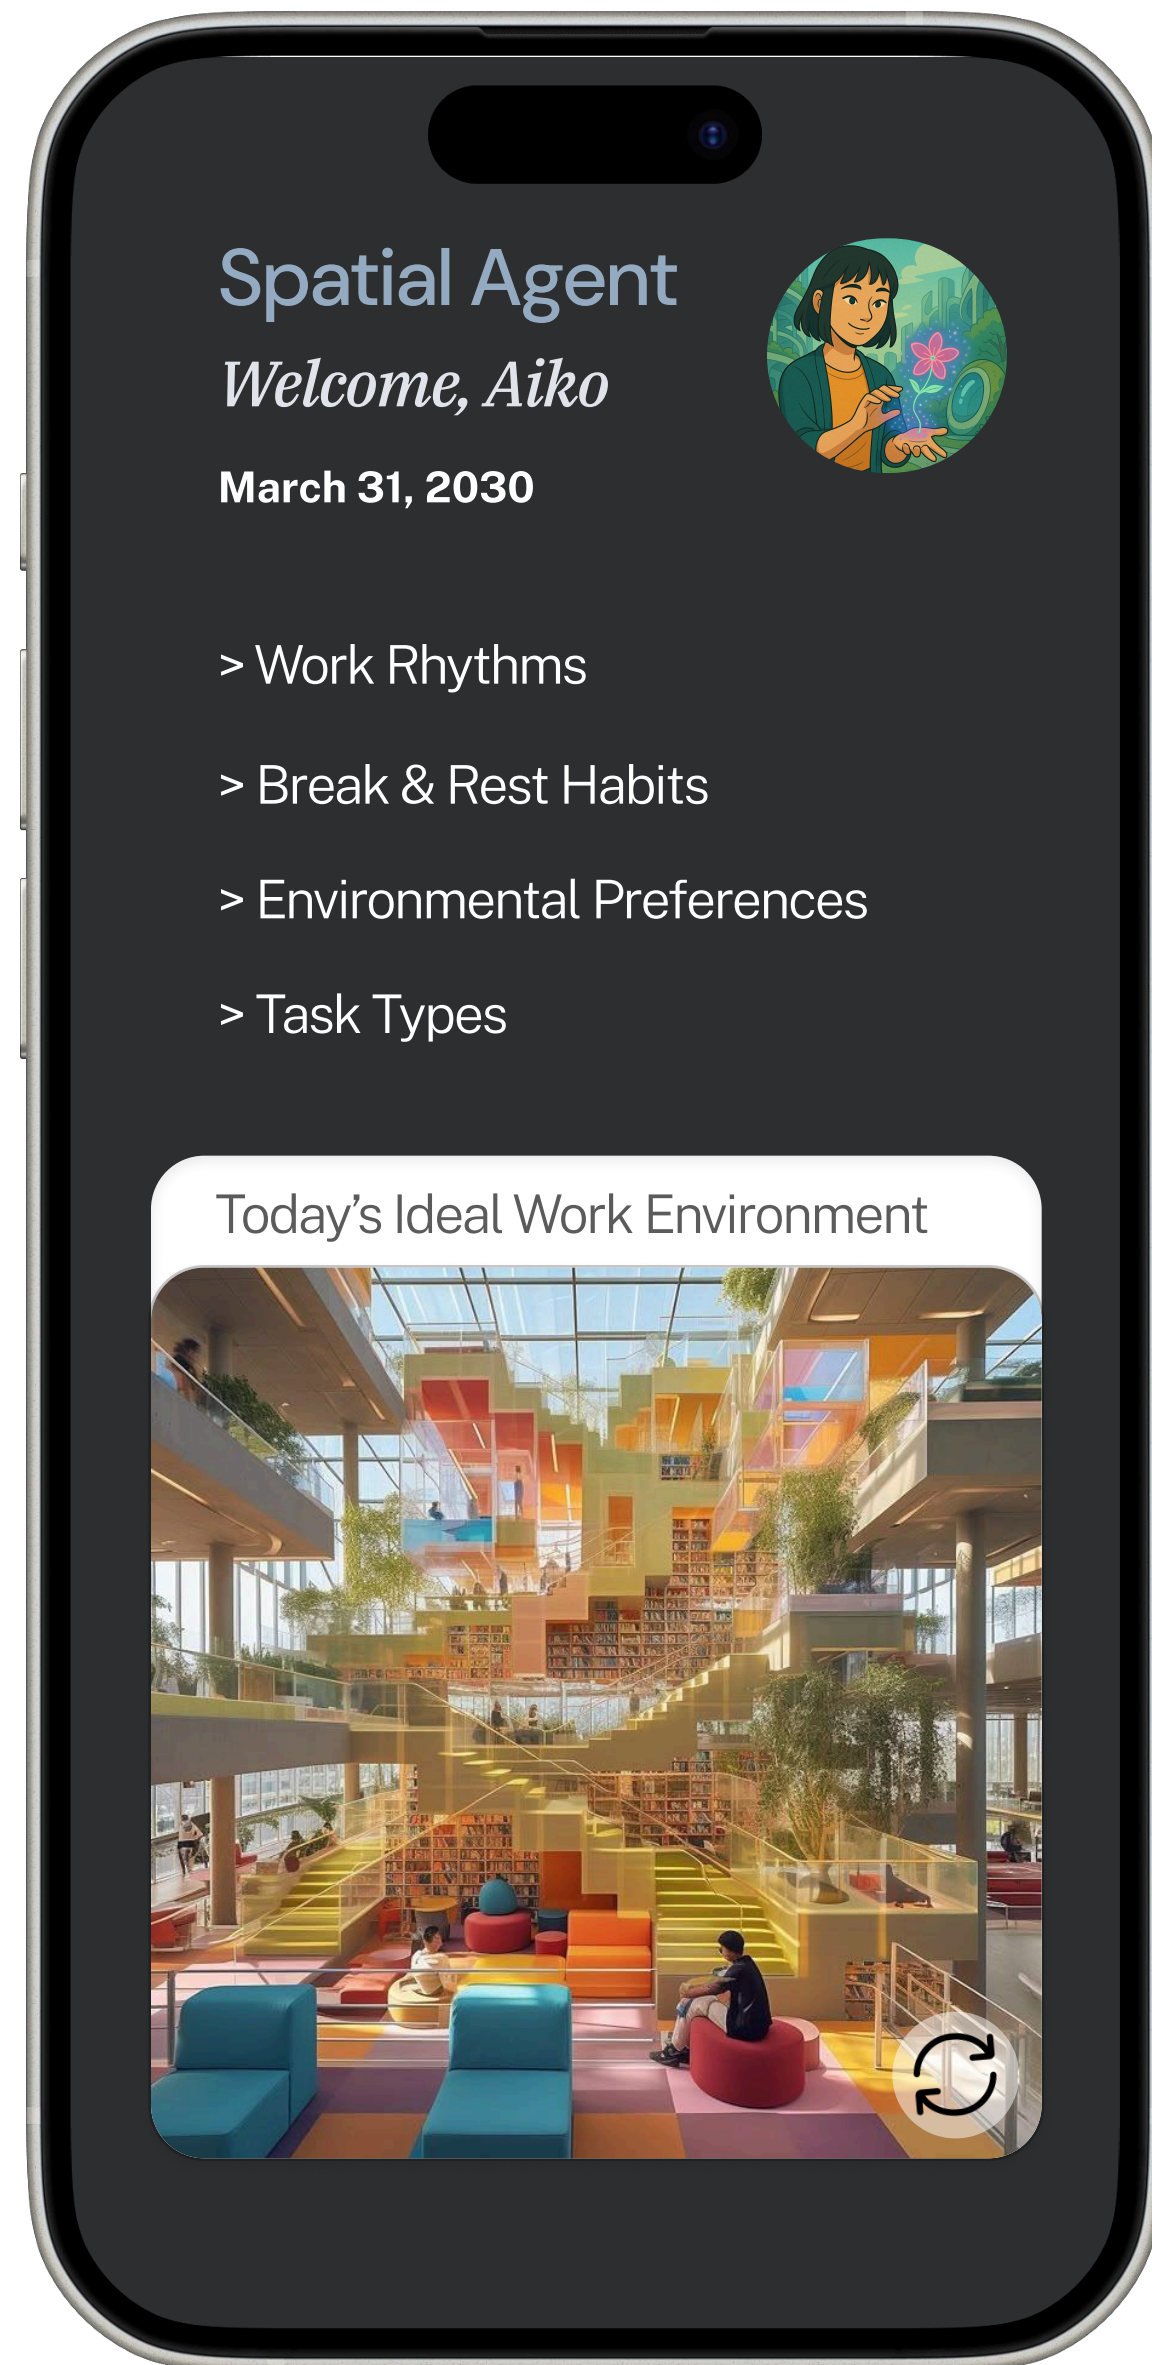

An AI powered workspace that uses your existing biometric and work data to tailor your third space environment to your needs.

## Shared Optimization in Third Spaces

*How do we ensure each person thrives — while also tuning the space for group dynamics?*

AI-Convened Group Presence Mapping

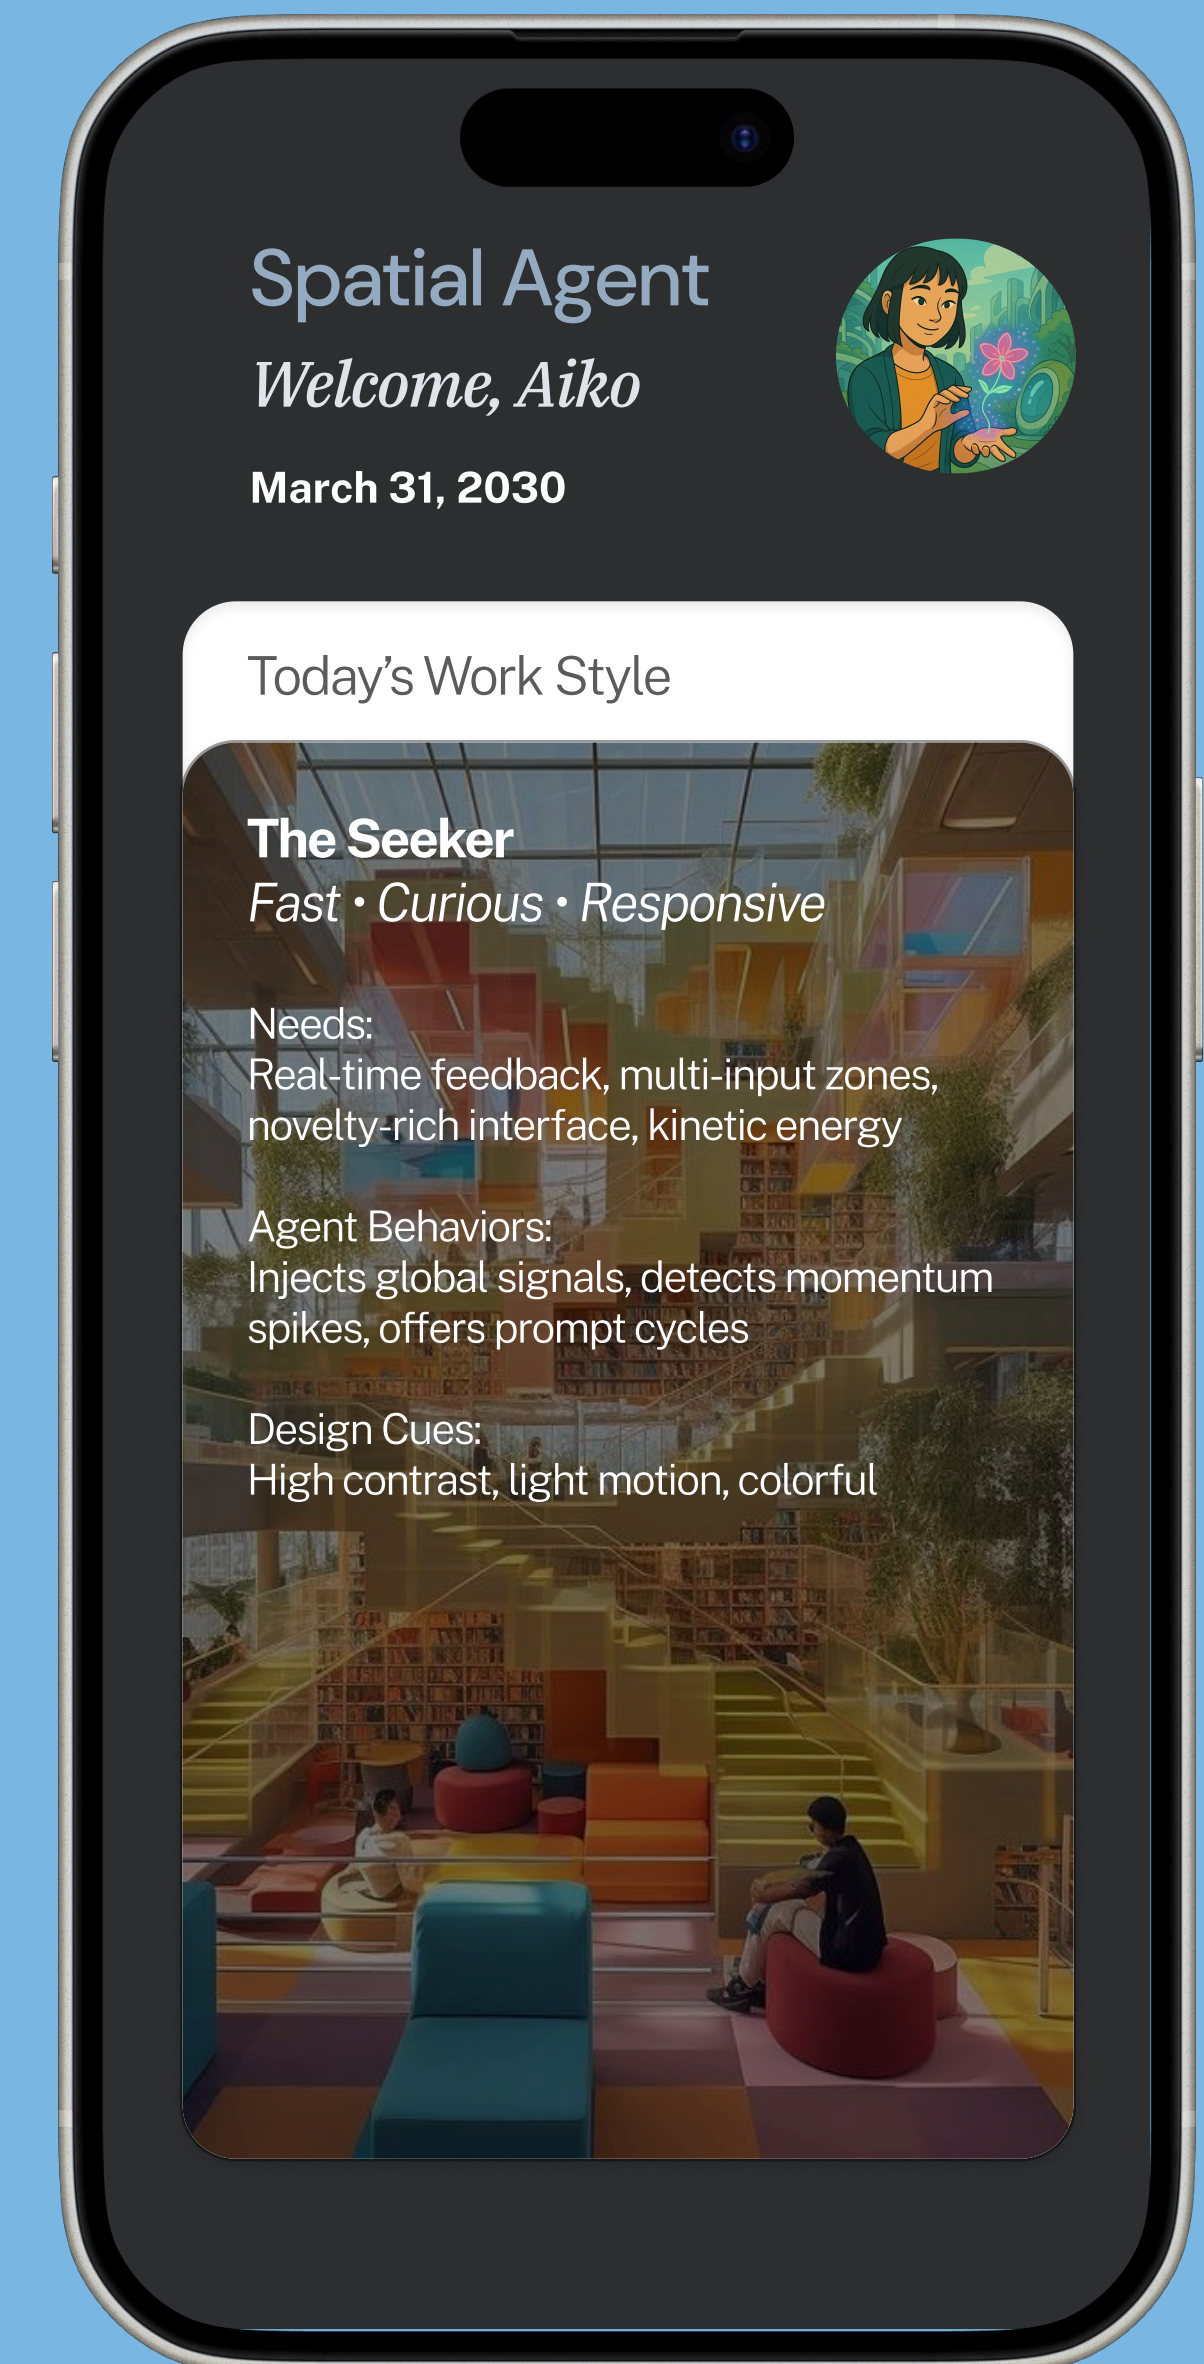

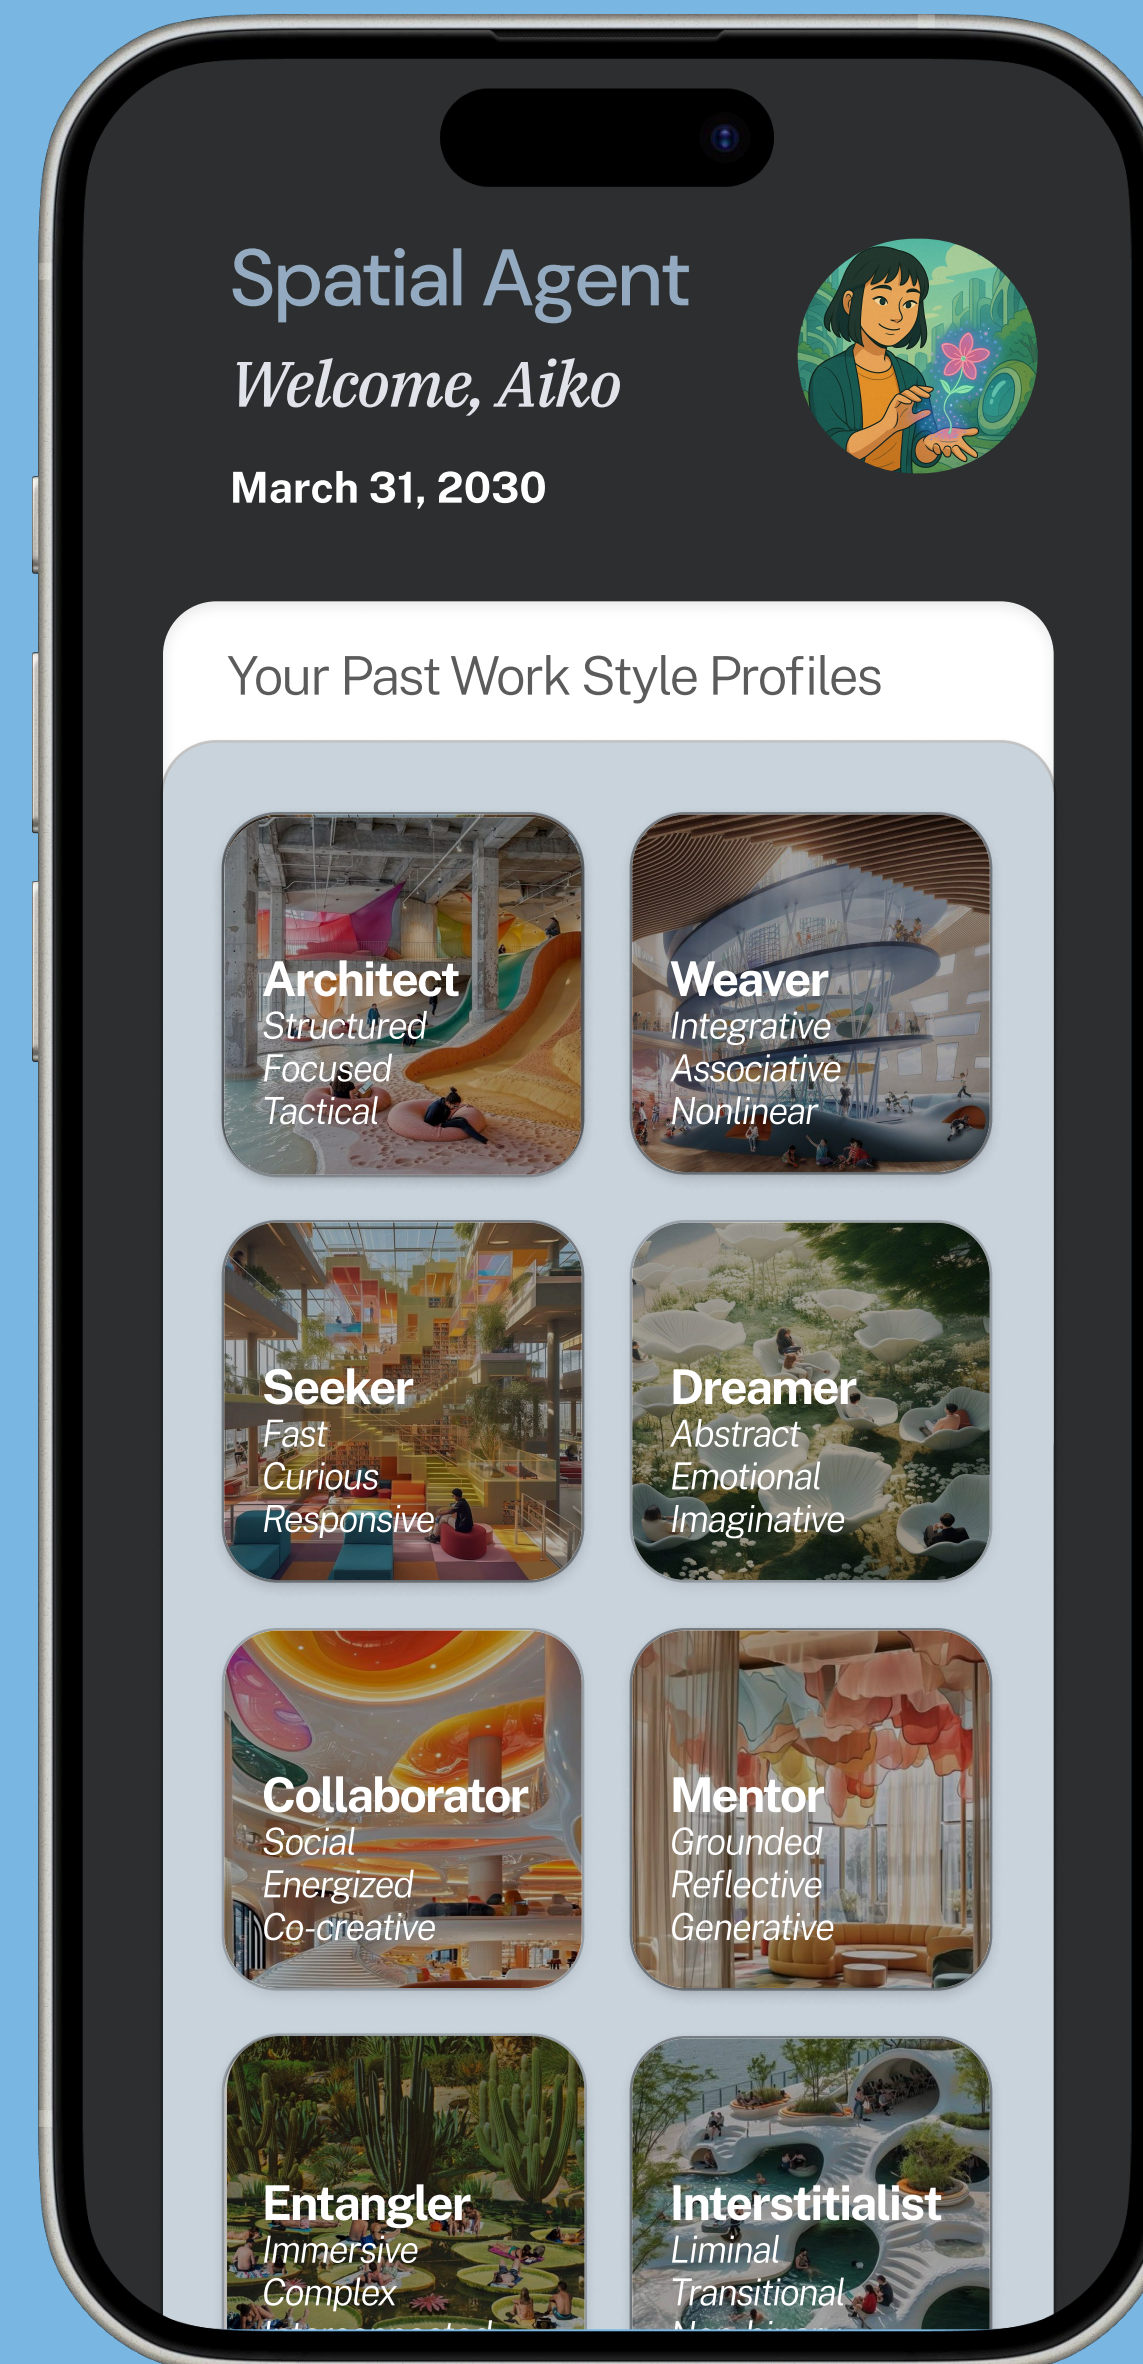

Collective Compatibility Index (CCI)

Spatial Intelligence & Real-Time Reconfiguration

Shared Feedback Loops

Spatial AI Agent  
develops best fitted  
spatial identities  
and matches you  
with compatible  
work partners

# HOW DOES IT WORK?

## *MEASURES...*

- Biometric Data (e.g. Watch + Whoop)
- Daily habits
- Working needs
- Mood
- Emotional response habits
- Type of work
- Role

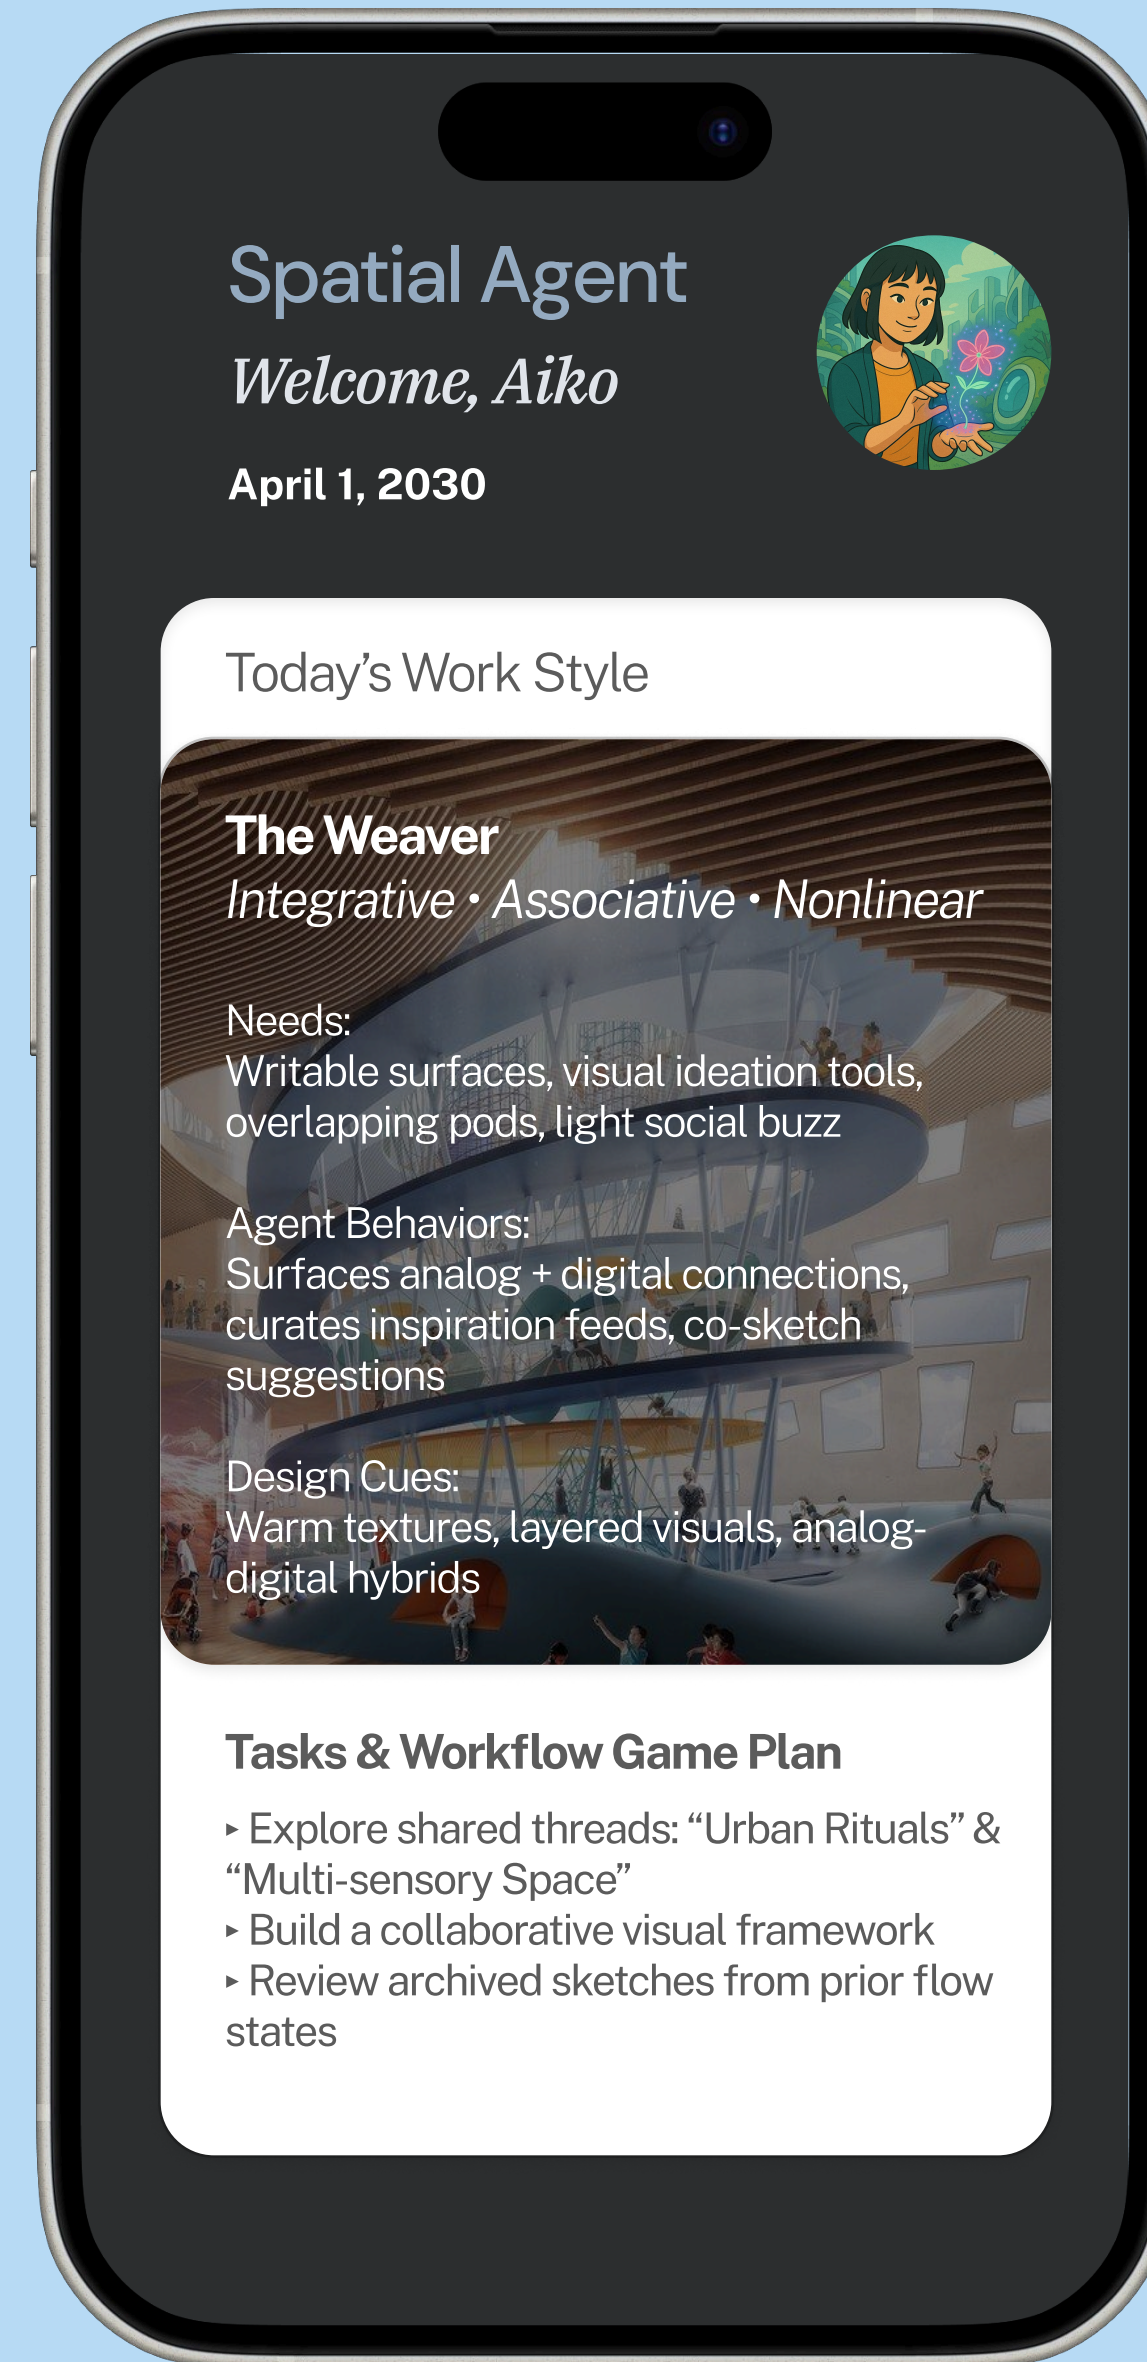

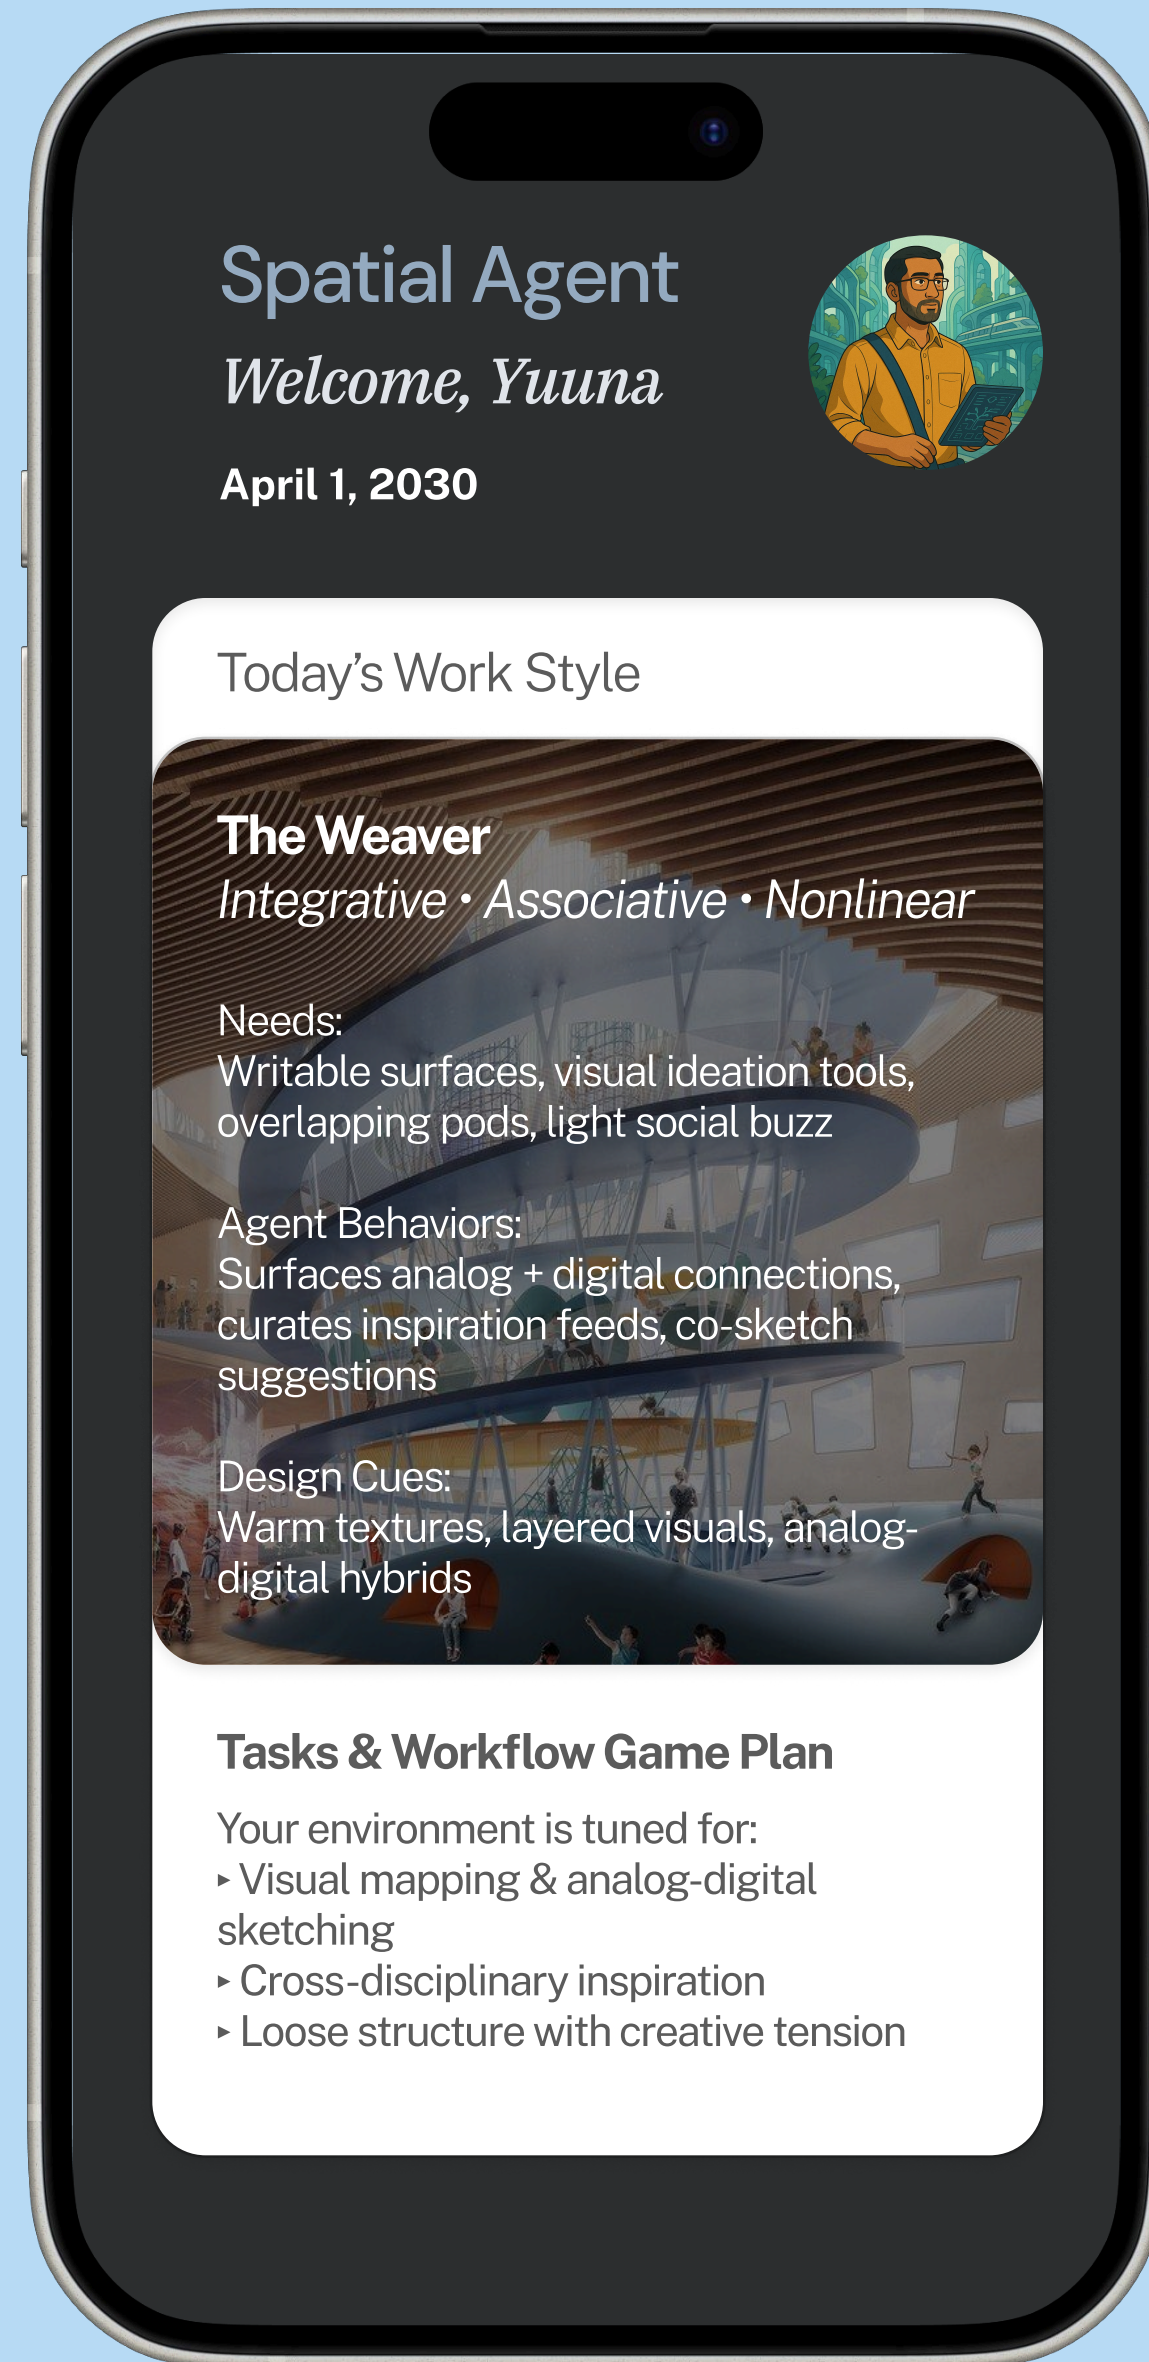

## *OUTPUTS...*

- Lighting
- Screen imagery
- Ambient temperature
- Air power
- Sound
- Scent
